

Previous Research Participants

CU Viability Research

The following people¹ participated in a focus group about the Robot where the last two questions were formative and focused more on new software rather than on what was working/not working with the current Robot.

Participants

- [Someone] - Longmont Food Rescue
- [Someone] - Colorado Springs Food Rescue
- [Someone] - Denver Food Rescue
- [Someone] - former employee at Boulder Food Rescue
- [Someone] - Athens Food Rescue

Questions Asked

- Tell me about your role and general experience with the Robot?
- How does the Robot best support food rescue initiatives in your community?
- What are your favorite features of the Robot?
- If you could make 1-2 changes on the Robot, what would they be?
- If you were a designer on the Robot, what would be your top priority?
- Let's talk about viability in terms of ownership scenarios...
